

## **iTRADE RISK DISCLOSURE**

- I. You acknowledge that trading in commodity futures and options is speculative and involves a high degree of risk, and that no promises or representations regarding profits or limitation of losses have been made by iTrade or any of its associates. Because of the complexity only genuine risk capital should be used for trading.
- II. No representation is made that using automated strategy/indicator software or taking educational commodity trading courses, paper trading or online simulated trading will increase your chances of success in trading futures. Simply because a subscriber of the strategy or indicator and/or educational materials follows its methodologies does not mean that the customer's trading will be profitable or losses will be limited. As a result, customer acknowledges that the high degree of risk involved in commodity futures and options trading is not lessened by having subscribed to the strategy and/or materials of any educational service or paper traded and does not guarantee or assure that the customer will make a profit or limit his losses.
- III. You acknowledge that you shall not receive any trading recommendations by iTrade or associated agents, and that any trading recommendations received shall not be relied upon by you for accuracy. You must make your own independent decisions as to the advisability of a specific trade or rely on the independent advice of a CTA or other account manager not affiliated with iTrade.
- IV. It has been widely reported that most futures and options traders lose money. iTrade has no proof that individuals who subscribe to automated strategies, educational commodity courses, attend seminars and/or workshops perform any better than other futures and options traders.
- V. You acknowledge that you have exercised independent judgment in selecting a futures brokerage firm and that opening an account with that firm is purely optional and voluntary. And that you alone are responsible for proper installation and use of selected brokerages trading platform.
- VI. You acknowledge that you shall be liable for all losses in your account(s) whether or not your account(s) is liquidated for any debts and deficiencies, including, but not limited to, interest, costs, expenses, maintenance fees, exchange rates, margin call fees, liquidation fees and attorneys' fees, including all debts and deficiencies resulting from a liquidation of your account(s).

VII. You acknowledge that automated strategies/indicators and system trading, whether actual, hypothetical or simulated, will not produce the same performance results as manually executed trades. And that automated strategies/indicators and system trading has certain inherent limitations. Including but not limited to the inability to produce consistent performance results from one similarly configured computer to another. And that unlike actual performance records, simulated results do not represent actual trading. And that simulated trading strategies in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any account will or is likely to achieve profits or losses. There have been no promises, guarantees, or warranties suggesting that any trading will result in a profit or will not result in a loss.

I have read, understood, and consent the foregoing:
